

ERATE FUNDING

New Hope Technology Foundation

(919)968-4332

New Hope Technology Foundation

As a full service E-Rate Consultant, New Hope assumes the application burden for the entire E-Rate process. We ensure that you school obtains the maximum amount of funding through the federal E-Rate program while minimizing the risk of adverse decisions during any audit.

Partial List of New Hope's Services

- Determine schools discount rate (conduct survey as necessary)
- Determine eligible services
- File forms 470, 471, 472, 468, 498, 500 and all other necessary forms
- Answer PIA, PQA and all other program questions
- Manage all audits, appeals and reviews
- Assist with creation of technology plan as needed

Value of using a consultant

A consultant ensures that you are fully compliant with all rules, regulations and deadlines. This allows school administrators and staff to focus scarce time and resources on the business of managing their school. A consultant also ensures that a school is able to maximize opportunities within a program that is constantly evolving. Our all inclusive fee is completely contingent upon successful funding.

New Hope works closely with the USETPA purchasing consortium to help streamline the E-Rate process and all of our clients are eligible, at their discretion, to take advantage of the consortium Form 470. The relationship further ensures that all purchases are made at the best possible terms.
