## Wireless Mobility

Learn how **Secure Wireless Mobility** can help your network. Constant Network Change, Growing Bandwidth Demands, Multiple Devices per user connecting simultaneously. How do we stay Secure when our IT Team is overrun with daily tasks.

**5 YEARS AGO, Wireless was part of your Network.**

**Now it "IS" your network**

**Demand Secure Fast throughput**, simultaneously handle 2-3 devices per person. The "Internet of Things" (IoT) devices, leaching onto guest networks without regard to security policies. It is UNACCEPTABLE to just push unknown connections and traffic to the "Guest Network". The Wireless Mobile Network is the fabric that delivers information to get our jobs done while keeping family, social connections.

**Join HPE/Aruba-ACP to learn, experience industry leading**

**"Aruba Mobile First Network."**

- **New Secure and Powerful Wireless connectivity**
